Mario Dorostkar

Mission statement and activities of the Young Scientists Association of the Medical University of Vienna

1. Promoting networking between young scientists at the Medical University of Vienna (MUV).
2. Establishing a communication channel between MSc/PhD students and MUV officers.
3. Intensifying information transfer between young and established MUV scientists.
4. Organising scientific meetings (PhD symposia) and seminars for national and international knowledge transfer.
5. Promoting critical reflection of scientific publications and persuing holistic multi-disciplinary approaches for integrating current knowledge and improved collaboration of different scientific fields at the MUV.
6. Integrating foreign MSc/PhD students and scientists working at the MUV
